- ✓ Reduces Over-Tourism – Helps prevent overcrowding in fragile destinations.
- ✓ Promotes Eco-Friendly Choices – Encourages sustainable transportation, accommodations, and activities.

Pack Light and Smart:

Minimize luggage by packing reusable and versatile items, and consider multi-purpose toiletries.

Stay in Eco-Friendly Accommodations:

Research and choose hotels or guesthouses that prioritize sustainability, such as those with water-saving measures and waste reduction programs.

Shop at local markets, eat at family-run restaurants, and engage with local artisans to support the economy and culture of the places you visit.

Be Water Conscious:

Carry a reusable water bottle and refill it instead of buying single-use plastic bottles. Be mindful of water usage in your accommodation and when showering.
